

Quynh Anh Tran

Fresher Business Analyst cum Quality Assurance

Phone: 0902148134 | Date of birth: 26/11/2005 | Address: Cau Giay, Hanoi
Email: tranquynhanh28032016@gmail.com | Portfolio: my-portfolio-mu-rose-6bk5xfyf68.vercel.app

SUMMARY

IT graduate (program completed, awaiting degree) with over 1 year of BA cum QA/Tester internship experience at 3 companies, across banking (BIDV), enterprise software (Viettel), warehouse management and AI projects. Experienced in working directly with clients and developers, writing BRD/SRS/FRD/RSD documents, handling change requests, designing test cases, API testing and reporting bugs. Seeking a Business Analyst role to grow as a bridge between business and technology.

EDUCATION

CMC University – Bachelor of Information Technology, Hanoi | GPA: 3.7 *10/2023 – Present*

EXPERIENCE

Business Analyst cum Tester Intern | Hyperlogy (onsite at BIDV) *05/2026 – 10/2026*

Project: Smart eForm System – BIDV

- **BA:** Worked onsite at the bank, communicating directly with the client to clarify requirements throughout development.
- **BA:** Received client change requests and updated the RSD accordingly, using AI tools to speed up documentation.
- **BA:** Explained requirements in detail to developers and answered their questions, acting as the bridge between client and dev team.
- **Testing:** Wrote test cases based on the RSD and executed functional testing; detected and reported bugs for developers to fix, then re-tested the fixes.
- **API testing:** Tested APIs to verify input/output data and business logic against requirements.

Business Analyst cum QA Intern | zen8labs Vietnam Co., Ltd. *11/2025 – 04/2026*

Training: Completed BA training based on the IIBA standard (BABOK® Guide) and the PMI ITTO framework; practiced on an Applicant Tracking System project, producing an Elicitation Plan, Communication Plan, RACI Matrix, Traceability Matrix and BPMN process models with gap analysis.

Project: Code Review and Model Usage Analysis System – VTNet (Viettel)

- **BA:** Gathered and analyzed requirements; authored the full document set: FRD, SRS, effort estimation sheet and user guide, using AI tools to speed up documentation.
- **BA:** Joined weekly meetings with the client and project team to update progress, clarify features and feedback, and add new requirements to the documents.
- **QA:** Wrote detailed test cases and ran system testing before handover.
- **Database testing:** Used SQL queries to reconcile data and verify the accuracy and integrity of the data.

Project: Warehouse Management System – PI Pharma

- **Testing:** Designed permission-based test cases covering inbound/outbound receipts, internal transfers, data import and inventory grouping.
- **Testing:** Focused on complex business flows and edge cases; detected critical logic defects early during manual testing.
- **Database testing:** Used SQL queries to reconcile data and verify the accuracy and integrity of stock data.

Business Analyst Intern | Tri Nghia Trading Services and Technology Co., Ltd. (TNT) *06/2025 – 10/2025*

Project: AI Tire Classification System – automotive client in Singapore

- **Elicitation:** Planned and prepared scripts for requirements meetings, and joined them directly with the Singaporean client.
- **Communication:** Explained basic AI/Machine Learning concepts in business language, helping the client picture how the system works.
- **Documentation & coordination:** Supported writing BRD and SRS documents; explained client requirements to the dev team and answered questions about business flows.

CERTIFICATIONS
